

# KURZWEIL 3000

## Kurzweil Education Addresses the Literacy Emergency:

Approximately 85% of all individuals with learning disabilities have difficulties in the area of reading.  
— National Institute of Child Health and Human Development

EVERY LEARNER DESERVES...

## TOOLS THAT HELP THEM UNLOCK THEIR POTENTIAL.

Conquer literacy challenges and unlock your learners' potential to **READ**, **COMPREHEND** and **DEMONSTRATE** their knowledge using technology-based tools and resources from Kurzweil Education.

Discover an **anytime, anywhere** approach to learning that allows your students to study away from the classroom or lab environment — an ideal solution as 85% of all learning stems from independent reading (Mist & Simpson, 2000).

Our innovative technology supports students who:

- are underprepared or overwhelmed with schoolwork
- have a learning disability, or disability-related functional limitations
- are from a different country, or who struggle with English proficiency
- have demands outside of class, such as athletes, parents, or working students

Those achieving in the lowest quartile are 20 times more likely to drop out than top-performing students.

# KURZWEIL 3000 FIREFLY

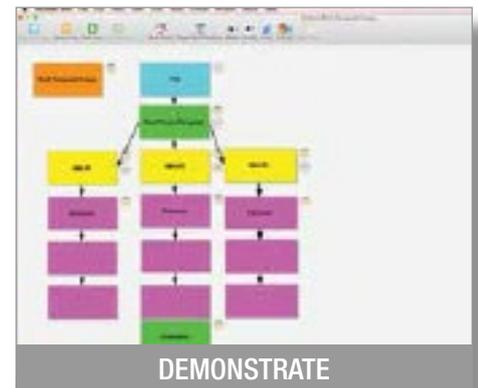

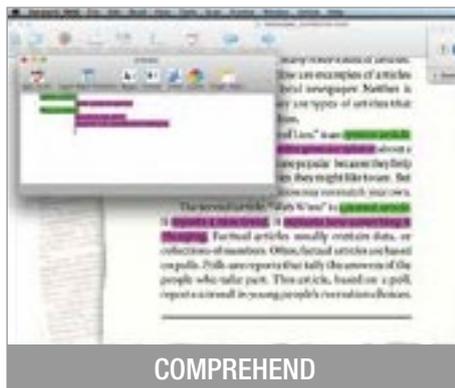

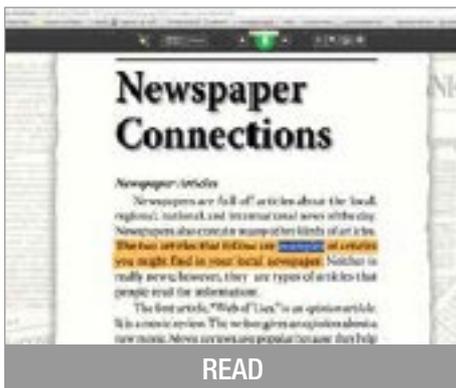

## K3000+FIREFLY PROVIDES A MULTISENSORY APPROACH TO LEARNING, HELPING STUDENTS BECOME INDEPENDENT, SUCCESSFUL LEARNERS.

Thousands of educators across the world — are choosing k3000+firefly, a cost-effective solution for providing literacy support for students both at home and in the classroom.

Using Universal Design for Learning (UDL), our software helps educators to meet the varying needs of their students within one intuitive environment. This innovative learning environment allows students and educators to work directly on either the Windows® or Macintosh® platforms, by logging into the web-based application, or through the iPad app. What's more, all are connected via a centralized user management, file storage and reporting system.

Together we can improve literacy and transform all students into confident learners with a path forward. For every "I can't," k3000+firefly can uncover more options for "you can."

### Here's how it works...

k3000+firefly is literacy support software that gives all students the ability to access content and learn alongside their peers. Students of all levels can learn from the same materials, which are accessible through the system's online library.

#### READ

Translating text into audio and visual presentation formats (text-to-speech) increases reading speed and accuracy and enables students to overcome deficits in decoding. Available in 18 different languages and dialects all with human-like Acapela voices.

#### COMPREHEND

The delivery of audio and visual reinforcement improves reading comprehension of larger volumes of complex text and strengthens retention while improving the learner's ability to focus.

#### DEMONSTRATE

Key information and supporting evidence can be extracted into outlines, then seamlessly moved from brainstorm to completed written work within the same system. Tests can be taken at each learner's own pace.
